Natural Vedic Paints

Harmony with Nature and Health

Time to Get back to our roots

A human being consumes 2 kg of Food, 3 Litre of water & 11,000 Litre of breathe in 24 hours. For 2 Kg Food we prefer organic For 3 Litre water, we prefer Mineral water/ RO water but for breathing, we do not care which is 5500 times more important than Food and Water. We paint our houses with chemical paints which directly affects our health and we fall ill. **The Natural Vedic Paints manufactured by Doot Naturals (which were used in old Palaces & Havelis) are Totally Free from VOC.** These paints are exclusively made with Natural substances such as lime powder, Indigenous Holy cow dung, jaggery, methi, red soil, yellow soil etc. The Natural Vedic Paint by Doot Naturals are 100% Chemical Free and maintains positives energy in the houses.

“For Food we prefer organic”

For water, we prefer Mineral water/ RO water
but for breathing **we do not care**
which is 5500 times more
important than Food
and Water.

Vedic Paints vs Chemical Paint

We care for the environment, your health & you.
Vedic Paints comes with a number of benefits over the chemical paint.
Vedic Paints has zero negative impact on the environment as it is made with raw ingredients. It comes with a lot of advantages, some of them are:

Parameters	Vedic Paint	Chemical Paint
Ingredients	Made with raw ingredients like water, lime, natural minerals	Made with hazardous chemical like cadmium, lead, chromium
Impact on Environment	Safe for Environment	Responsible for Global warming
Chemical	No use of petroleum products synthetic etc.	Extremely toxic
Responsible for diseases	Prevents your home from Bacteria & Viruses	Can cause asthma, liver, kidney damages and other harmful diseases
Indoor Pollution	Porus & breathable Walls reduce indoor pollution	VOCs & chemicals Increases indoor pollution
Reduce House temperature	Lime & cow dung & microporus reduces house temperature	Laminating paint decrease porosity of the walls & increases the room temperature
Radiation Saving	Yes	No
Durability	More than 5 to 10 years	More than 3 to 7 years
Blistering & Peeling	Due to microporous, moisture is not trapped between the wall & the layer of Paint	Due to plastic lamination, moisture is trapped between the wall & the layer of Paint
Cost per sq Feet	For glossy point-2.98 rs. Per sq. Feet For tenture point- 10.63 rs per sq. feet	For glossy paint- 3 -5 rs. Per sq. Feet For tenture paint-30-40 rs per sq. feet

Explore the benefits Vedic Paints

Vedic Paints comes with a number of Positive Benefits

1 Eco-friendly

Made with raw ingredients such as lime, water, Natural minerals, and totally free from chemical ingredients.

2 Breathable

Keeps your walls clean, reduction in the potential of damage forming, non combustible resistant to weathering.

3. Natural Thermal Insulator

Porus materials reduce house temperature.

4. Natural Sanitizer

Lime based paint prevents your Home from Bacteria & Viruses.

5. Prevents from Radiation

Vedic Paints prevents your home from Harmful Radiations that has adverse impact on health.

How to apply Vedic Paints

Curing of wall & applying of Vedic Paint

Wall should be cured with water atleast three times. Vedic Paint should be then immediately applied through brush, roller or gun machine.

Texture Paint or Basecoat

Walls should be properly cured & texture paint/ basecoat should be then applied through gurmala/ wood trowel/ wood hand floater. For second coat, the wall must be cured after first coat is fully dried.

Chemical Painted walls

If the walls are previously painted with chemical paint, the chemical paint must be removed, wall should be cured at least three times and the basecoat should be applied before the paint
